The Celebrity *Fat Freezing* Phenomenon

Christina Aguilera has just unveiled her newly slim body. The secret to her success has been attributed to the amazing new Cooltec, fat-freezing treatment. Now you too can avail of this amazing new treatment exclusively at Therapie Clinic in Northern Ireland.

Cooltec can eliminate fat by up to 40% after just 1 treatment. The treatment is so popular you'll have to wait at least 3 weeks to get an available appointment! "The results we are getting are just incredible. The best part is that it's non-invasive yet the results are akin to having liposuction - amazing!" said Tracy Gilligan, Therapie Clinic.

Cooltec at Therapie Clinic will eliminate fat by between 20-40% after just 1 treatment. The results are nothing short of miraculous, with many clients dropping a dress size after just one treatment.

Cooltec at Therapie Clinic will eliminate fat by up to 40% after just 1 treatment, it's a new celebrity favourite

How does it work?

Cooltec exposes fat cells to controlled cooling in order to break down the fat and destroy it, so that it can be naturally flushed away from the body. A suction-like device draws in the tissue and cools the fat cells which shrink, break down and are removed by the body's natural metabolic process. It's non-invasive and there's zero downtime - just expect to feel like you've been hitting the gym!

Results can be seen in as little as 15 days after treatment and the fat cell reduction continues for 3 months. Our favourite part about Cooltec is that it's particularly effective at shaping and contouring the waist, giving a lean, toned, sexy curve to the body.

What to expect

A free consultation determines your suitability. The ideal candidate is generally fit and healthy, within 10-15% of their ideal weight and has stubborn, exercise

and diet resistant pockets or bulges of fat. The area being treated requires 60 minutes of cooling. You just sit back and relax, watch a film or read a magazine while the treatment gets to work!

Whether belly fat, back fat, abdominal fat, or stubborn fat in other areas, this super new treatment at Therapie Clinic will freeze, break down and eliminate stubborn fat cells by up to 40% after just 1 treatment. ...Now, where did I put that bikini, there's definitely time to get reacquainted this summer!

Contact Therapie Clinic on 08000 121 565. Clinics include Donegall Place in Belfast, Carlisle Road in L/Derry and Merchants Quay in Newry. www.therapieclinic.co.uk

TWO ROBOTIC FIRSTS FOR NEWRY!

At McNally's Late Night Pharmacy the healthcare needs of the community is our main priority. We work to provide an accurate, fast and meaningful service to all our customers and to ensure continuous improvement. Keeping up to date within our industry is of the utmost importance and as a result we have introduced **TWO NEW & INNOVATING PRODUCTS**.

1. 'PHARMOBOT' The Automated Dispensing Robot

This innovative machine located within our Pharmacy is used for dispensing medications which are then reviewed by the pharmacist.

The patient's prescription is scanned onto computer using the 3D bar code and the robot then prints off the dispensing label to attach to the medicines. Within just one second the Dispensing Robot finds the listed medicines according to the dosage and then dispenses the medicines to one of four counters.

Our Robot has the ability to arrange medicines according to frequency of demand and also rotate the stock according to expiry dates. These procedures

eliminate any possibility of dispensing errors.

A huge benefits of this Robot is that it minimises the waiting times for our patients. Our Pharmacists and Technicians no longer spend their time putting away orders and selecting medication in order to fill prescriptions. This frees up their time and allows them to spend it imparting knowledge and advice to our customers at the front counter instead. It also increases stock rotation and reduces stock wastage and overall stock holdings. Our patients can witness a demonstration of the Robot in action on television which is located in the Pharmacy Window.

Left-Right: Maria Taafe, Pharmacist at McNally's Late Night Pharmacy; Morgan Smyth, winner of naming Pharmobot; Laura Phillips, Manager of McNally's Late Night Pharmacy.

McNally's Late Night Pharmacy recently ran a Naming Competition with all the local primary schools. The children were asked to provide a name for our new Robotic Dispenser. The lucky winner of the competition was Morgan Smyth from St. Malachy's Primary School, Newry who chose the name 'Pharmobot'.

Morgan won a £100 Easons Gift Voucher and she also won a £50 Easons Gift Voucher for her school.

2. QUICKSCRIPT KIOSK Iceland Building, Monaghan Street

Our second and equally impressive introduction is our Quickscrip Kiosk.

The Quickscrip, which looks and acts a bit like an ATM Machine, is located on the corner of the Iceland Building on Monaghan Street, just outside Newry Health Village.

Our patient feeds their prescription into the kiosk and this is then encrypted and transmitted securely to McNally's Late Night Pharmacy where a member of staff is alerted.

The prescription is then uploaded and prepared via the Robotic Dispenser and is ready and waiting for the patient upon them entering the Pharmacy.

This system allows for improved efficiency and most importantly reduced waiting times and improves our quality of service.

Patients also have the option of speaking with a Pharmacist from the Quickscrip via a secure encrypted audio-visual conferencing function, should they wish to do so.

McNally's Late Night Pharmacy are proud to be the first community pharmacy on the island of Ireland to have either of these two exciting products, ensuring that we provide the most up to date standard of practice and care at all times.

McNally's Late Night Pharmacy - serving our community for over 80 years!

The Quickscrip Kiosk at the Iceland Building on Monaghan Street, Newry is the latest Innovation from McNally's Late Night Pharmacy.

It's competition time at Kellys Golf Centre

Pictured above are a group of aspiring young golfers who took part in Junior Summer Camps at Kellys Golf Centre a few years back. See how many you can name. Those who name the most will be entered into a draw for 100 free balls to be used in the Driving Range and a free round of Pitch 'n' Putt for two. You can enter this competition at Kellys Golf Centre or via their Facebook. Closing date for entries is 30th April 2014.

With the long evenings fast approaching, Kellys Golf Centre, The Avenue, Milltown Street, Burren, is currently running a number of competitions every week which are proving to be, not only competitive, but also more and more popular.

Every Tuesday night, between 6pm and 8.30pm, there is a Longest Drive Competition, and every Friday, from 5pm to 7pm there is a Nearest The Pin Competition. Both competitions are contested in the Driving Range, and are open to all ages. To enter you pay only £1 for 3 shots and the winner gets 100 free balls.

Fast approaching is the first major competition scheduled for 2014, Kellys Masters, which will be played on Saturday 19th April. Once again, it will be open to all ages with many prizes on offer - for further information on how you can enter this competition, contact the Centre and ask for Conor D'Arcy.

The Junior Winter League Competition is now drawing to a close and preparations are well under way preparing for the very competitive Junior Summer League.

As well as all these competitions, there is unlimited balls every Thursday from 6pm for only £8; and then there is Friday Madness, where if you hit 60 balls or play Pitch 'n' Putt you get a **FREE HOT DRINK!**

On top of all these activities, Kellys Golf Centre are now taking bookings for their ever popular Junior Summer Camps - with 10% discount if paid before 30th April 2014.

TV Presenter

Pamela Ballantine *undergoes life-changing eye treatment*

In my line of work, I am so reliant upon my vision, my reading and ultimately my eyes. So needless to say, they are very important to me. My biggest problem was my reading vision really wasn't great and neither was my distance vision but I had coped by using my contact lenses.

I had considered Laser Eye Treatment for some time, but had never got around to it. However a friend of mine recommended Optilase, facing the City Hall in Belfast, and suggested I should go for a Consultation.

When I heard that the Kamra treatment was exclusive to Optilase in NI and Optilase were the number one provider in Europe and 2nd in the world in terms of completed treatments, I was greatly reassured and this made my decision to visit an easy one.

After speaking to Optilase and answering some simple questions, I had booked my Consultation. First step taken then!!

My initial Consultation was around an hour long. So I went along to the Flagship Clinic and Surgery Centre, opposite Belfast's City Hall. The Clinic was like being at a 5 Star hotel! The staff were absolutely tremendous and I was immediately completely at ease. Bring it on, I thought!

So, after a coffee, (which might I add, was excellent), I filled out a simple form, and met my Optometrist who would be looking after me for the next hour. He was very reassuring and answered some of my very silly questions. I was completely put at ease.

He explained how the Consultation would proceed and took me for some scans and pictures of my eye. I confessed to doing some homework on the technology that Optilase use and felt very informed and completely reassured throughout the process.

A big thing for me also was the reassurance of the Optilase Lifetime Care Guarantee – basically Optilase look after and treat my vision for the rest of my days,

even if I needed to be re-treated further down the line, at no extra cost!

After the scans and eye test, it was time for the big result – and I was absolutely delighted to hear that I was suitable for Treatment. Hurrah!! By now I really wanted it done and I was shown the potential about how good my vision could be afterwards. I really wanted complete freedom from those cumbersome glasses.

So two weeks later the big day came – and I approached this with some confidence, however I must admit that the day before surgery I was a bit nervous. The morning of surgery I was still a bit anxious but I needn't have been.

This is the best decision I have ever made, I now see life in full HD!

I then met with the Surgeon (for which there is also no fee) Medical Director Dr. Wayne Crewe-Brown. He has performed more than 40,000 of these treatments and he talked me through my different treatment options. I spent over half an hour with Dr. Crewe-Brown and felt completely reassured at the end of my Pre-Op. I opted for the KAMRA Treatment, with laser – exactly as the Surgeon had described and recommended to me. This would give me my near and distance vision and would do away with glasses altogether!

The actual surgery itself was over within minutes and I quickly realised there was no reason for me to have been nervous. The Surgeon was fantastic and talked me through each part of the procedure – the Nursing and Care team were second to none. There was no pain whatsoever during surgery – a question I have been asked by almost everyone I have met since the surgery, as there are so many myths out there about laser eye treatments.

After surgery my eyes were tender initially, a sensation I compared to the experience you have after

cutting raw onions. My eyes were watering all the way home and I had to wear black sunglasses to protect them, although the staff did advise me that I would be light sensitive straight away as my 'new eyes' got used to light again.

Following the advice from the team at Optilase I went home and relaxed – when I woke in the morning life had taken on a whole new perspective. Being able to see so clearly without glasses was the strangest feeling ever, absolutely fantastic and I was more than a bit emotional – I don't mind admitting. My near vision settled and dramatically improved after the next few days.

Just out of habit I even reached for my glasses (trust me; it takes a while before you will break that habit).

If I had some advice for anyone out there who wears specs, get it done – and get it done now! If only I had it done years ago.....

My advice? Find out if you can have it done – if you are suitable, find a way to have treatment – it will change your life..... I'm glad I did!!

THE TASTE OF 'EATALY' IN THE HEART OF NEWRY

New gastro team bring you great Italian Cuisine at affordable prices

A NEW team of quality Italian Chefs have joined the team at Eataly Restaurant on Mill Street in Newry to bring you the very best in Italian Cuisine at a very reasonable price.

Antonello Pittella, who hails from Naples, and his Brazilian partner Damaris Souza Dias have worked with the new gastro team at Eataly to develop a mouth-watering menu that caters for all the family.

As Antonello explained, the new menu is going down a treat. He said: "Firm family favourites are proving a big hit with customers and these include the wide range of 12 inch Pizzas made with Eataly's Special Tomato Sauce 'just like mama used to make,' as well as an extensive list of exquisite Pasta Dishes including the classics Spaghetti Bolognese and Special Recipe Lasagne.

"The menu also includes many Meat, Chicken, Fish and Seafood dishes, all at affordable prices. And if you want an authentic taste of Italy then Eataly's Speciality Tuscan Veal Stew is a must."

There are two menus available at Eataly, a Lunch Menu and A La Carte Menu and both are reasonably priced and the ambience of the Mill Street premises is perfect for any occasion, or simply dropping in to take the weight off your feet when out doing a day's shopping.

Smaller portions for children and pensioners also contribute to an affordable family meal that everyone will enjoy.

Whether you are going out for great meal with friends or a loved one or celebrating a family occasion, or looking for an ideal setting for a business lunch or dinner, Eataly is the perfect venue.

Eataly is a full licensed premises and offers an extensive wine list including many quality wines from the top Italian vineyards that are an ideal accompaniment for any great meal.

There are many offers available at Eataly throughout the week. On a Tuesday from 5pm there is a Half Price Pizza Deal and Wednesday is Steak Night with an 8oz Steak and Chips and choice of sauce available for only £9.95. And ladies, Thursday is your night when you can enjoy a Half Price Large Pasta Dish and a £2 glass of wine.

With Confirmations, Communion, Birthdays and other family celebrations on the horizon as we enter Spring, Eataly is offering a Family Friendly Deal for that special occasion. With parties of eight or more the Special Boy or Special Girl eats free!

As well as being deeply rooted in Italian Cuisine Eataly occasionally shows its Brazilian

influence with Damaris hosting special Brazilian Themed Nights.

Damaris said: "We held a Brazilian Night recently and it was a great success. We plan to host other themed nights in the near future so follow us on Facebook for more details."

Eataly is situated at 62/64 Mill Street opposite McKeever's Chemist on the Bridge and is open from Tuesday to Saturday between 12noon and 3.30pm and 5pm and 10.30pm and on Sundays from 1pm to 9pm. Give it a try, you won't be disappointed.

For reservations and more details on the A La Carte Menu contact Antonello or Damaris on 028 3083 2989.

ENDING PHOBIAS!

Phobias are extreme, irrational fears of some situation that for most people would be considered pretty normal. The top ten phobias are fear of flying, heights, enclosed spaces, dogs, injections, crowds, spiders, social situations, failure and of death. And there are many, many more, perhaps up to 500. They can seem amusing to others because they are irrational, but to the sufferer they can be a horrendous cause of anxiety, almost terror. The phobia causes the sufferer to avoid certain situations that will result in panic, and are often in a constant state of "alert", and so limits their lives. It can impact their physical life as well, even resulting in premature aging. Thankfully this, anxiety, panic and premature aging can be halted, for good! Human Givens Psychotherapists have the skills needed to help people dissolve phobias and stop the associated panic... for good!

WHY DO PHOBIAS OCCUR?

Modern brain science tells us that the brain works by "pattern-matching" current experiences against previous ones. For example we "know" what a car is, because our brain has stored pattern in memory of what a car looks like, or what coffee smells like because our memory has stored a pattern-match of its aroma. The first time we are frightened of a particular situation, person, animal etc the brain stores

Paul Grant

this in memory so it can pattern-match to it in the future. This memory is heavily tagged with the emotions of fear and anxiety. So, when a similar incident happens in the future the brain makes a pattern-match, and in a fraction of a second we are engulfed with the emotions of fear and anxiety! All the sufferer wants to do is escape from the fear. The phobia is now confirmed and will repeat endlessly, until the pattern is broken.

Psychologists have established that when we become highly emotionally aroused with this fear and panic, we literally become stupid and can't think straight.

Like the rabbit caught in the headlights of the car, the phobia sufferer, in the midst of their panic cannot think logically about what is going on. As such they cannot change their reaction to the feared situation. They may calm down again, but when the pattern-match is activated again, the vicious circle repeats! Thankfully this circle can be broken by competent Human Givens Psychotherapists.

HOW CAN PHOBIAS BE TREATED?

The psychotherapist uses a very simple painless thinking process known as the "rewind technique." Results are immediate and lasting. This technique detaches the emotion from the faulty stored memory so that the client is no longer afraid and the phobia ends.

If you have a phobia(s) consider making an appointment with Paul Grant who is a Consultant Psychotherapist in Human Givens therapy. Paul runs a private therapy practice from The Newry Clinic, Windsor Hill, off the Belfast Road. Paul works daily with patients who are depressed, anxious, stressed, addicted, angry, suicidal, experiencing relationship difficulties, have phobias or panic attacks.

To make an appointment or talk with Paul, call 077 3973 1424 or 02830441668.

Coping with Panic Attacks

Anyone who has ever had a panic attack will relate to it as one of the most frightening experiences they have ever had. It can hit like a bolt of lightning, and for many people the panic can continue - sometimes on a daily basis. Some people can be reluctant to tell family or friends what they are going through. So they live in a hell of unbearable silent fear. Yet it can be so, so different. Modern developments in brain science have given us access to very practical tools for coping with and eliminating panic attacks completely. Let's take a look at what causes panic attacks.

Mark (32) was watching TV one night with his partner and two young children. Suddenly he felt his chest tightening. He found it increasingly hard to breathe. He broke out in a cold sweat. He felt the room was closing in around him. His heart was pounding. He could not sit still, and felt faint when he stood up. He just wanted to "get out". He was terrified. He had never felt like this before. Mark was having his first full blown panic attack.

Mark's partner took him to A&E. The medics found nothing medically wrong. The next day his GP suggested he may have had a panic attack. Mark

Paul Grant

thought this unlikely as he did not think he was overly worried about anything. A few days later, after two more panic attacks and on the advice of his doctor, Mark went to see a Human Givens Psychotherapist.

When talking to the therapist Mark was astonished to realise the number of stressful changes that had taken place in his life over the last 24 months. He had a new job where his supervisor was setting him more and more difficult work.

As a result he was working long hours, had little time for his

kids, had frequent headaches and his relationship with his partner was strained.

The therapist explained the connection between the stress and the panic attacks and taught Mark some coping techniques during the very first session. The panic attacks stopped immediately, and in a few more sessions, Mark learned how to cope with the stress and be more assertive with his supervisor. He recovered completely.

Our bodies warn us when we are over worked, stressed or worrying too much. Sometimes we ignore the early warning signs. If we don't pay attention, and change our life style and/or learn some coping skills persistent worry, anxiety and panic attacks can result. When a person is having panic attacks the body is telling them that "they need immediate help!"

If you are anxious, and having panic attacks get in touch with Paul Grant, who is a Human Givens Psychotherapist at The Newry Clinic, Windsor Avenue. Panic attacks can be stopped completely, in most cases with 2-3 sessions of therapy.

To contact Paul for advice or to book and an appointment call, 028 3025 7708 or 077 3973 1424.

Benefit and Grant Advisory Scheme coming to an end in rural South Down and South Armagh

Since September 2012 South Down Family Health Initiative has been delivering the Maximising Access to Services Grants and Benefits in Rural Areas (MARA) throughout South Down and South Armagh on behalf of the Department of Agriculture and Rural Development (DARD) and the Public Health Agency (PHA).

During that time they have visited over 700 homes helping householder access services, grants and benefits that they are entitled to but may not have known about or how to claim.

Allison Slater, Project Manager, told us "during the last 15 months we have made 1900 referrals to agencies on behalf of householders, this has resulted in some people seeing increases of up £130.00 per week in their benefit entitlement, homes being insulated, grants of up to £1000 for boiler replacements being issued, 300 home safety inspections being completed and 35 people now registered and regularly using

Rural Community Transport"

"We have been shocked at how many people are living within South Down and South Armagh who have not been accessing all the support that they are eligible to and as a result have been struggling both financially and emotionally. There are no criteria for a visit, but older people, young families and families where there is a disability are most likely to benefit from a visit. I would encourage anyone who is finding it difficult to heat their home, make ends meet or get out of their home to contact the office and book a visit as soon as possible."

If you live in Annalong, Binnian, Burren & Kilbroney, Camlough, Crossmaglen, Derryleckagh, Donaghmore, Fathom, Forkhill, Lisnacree, Mayobridge, Newtownhamilton, Rostrevor, Silverbridge, Spelga and Tullyhappy and would like to talk to someone about getting help call Allison on 028 4177 4248.

ARE YOU...

- Struggling to heat your home?
- Finding it difficult to make ends meet?
- Struggling to get out and about?
- Feeling isolated but don't know what's available?

The MARA project aims to improve the health and wellbeing of people living in rural Northern Ireland by helping them access local services, grants and benefits.

Since September 2012 we have visited 500 homes across South Down, South Armagh and Craigavon

THESE VISITS HAVE RESULTED IN...

- 261 Benefit Entitlement Checks (some seeing increases of £100 per week)
- 238 Warm Homes Referrals
- 91 Boiler Replacement Scheme Referrals
- 96 Rural Community Transport Referrals
- 287 Home Safety Inspections
- 28 Smart Pass Applications
- 79 Referrals to Occupational Therapy
- 191 Local service referrals
- 17 Social service referrals (at householders request)

All you have to do to access this FREE service is ring Allison or Anouska

AUTO SERVICE CENTRE

ANY DEALERSHIP

Why travel to Belfast, Portadown, Lisburn or Dungannon for a dealership service and repair when we can provide the same - if not better - level of service at a fraction of the cost compared to that of a main dealer.

Why pay up to 40% more at a main dealership? At Auto Service Centre, Newry, we carry out all services in accordance with the Vehicle Assembler's servicing schedules and only use parts manufactured to Original Equipment (OE) quality - which means your manufacturer's warranty is protected.

We are not tyre or exhaust fitters. Auto Service Centre, Newry, is the only independent service, repair and diagnostic centre in the Newry City, South Down and South Armagh area to offer dealer level service on new and used cars, from qualified technicians and master technicians, without affecting your warranty, and without you having to pay dealership rates.

Maximise the lifespan and value of your car. Our expert technicians are trained to service virtually any make and model of car. We are committed to providing a friendly, straightforward, honest and transparent service.
